Organisation Name:

### Comment text:

I have lived in my house in Oakwood for the last 27 years and precious to that had other houses in Oakwood, I do not want my address to change to Breadsall Hill thank you very much and see my house price decrease because of the reputation that address has I did not move to Breadsall Hill I moved to Oakwood thank you and will not Change my address, This is a cheap way of the Labour council to try and gain votes this will not stop people from voting for a different party to be honest I do not give a dam about politics as they are all as bad as each other and do not care about the people of Derby or the UK for that matter only about themselves, so I am very angry and cross that this is even been considered.
