Comment text:

Thanks for consulting on the proposed boundaries. I am strongly opposed to the proposed "Rural East" boundary as it covers far too large a geographical area and will result in a significant reduction in "localness" and the ability of the designated Councillor to make a realistic input into matters affecting the area. I am in the village of Willingale (██████████ the Parish Council in fact) and it seems obvious to me that it would be impossible for the selected Councillor to provide adequate coverage for the needs of our small community and those immediately adjacent. I think the "High & Ongar and the Rodings" needs to be maintained as it is.
