I note that the most recent proposal is to link Drakes Broughton with Norton and Whittington. I have lived in Pirton for 29 years. Pirton is a small rural hamlet, with no bus service, no pavements and no street lighting. We have little in common with Norton or Whittington who are next to the ring road and on the outskirts of Worcester. My strong preference is to remain linked with parishes that have a rural focus with links with Pershore rather than Worcester. Pirton has always enjoyed a close association with both Wadborough and also with Stoulton; there are shared community social events (for example The annual Carols in the barn event in Wadborough, the Pirton Open Top car days and the fund-raising Friends of St Peters events). Our children all use the same schools, we received the same local monthly newsletter that is delivered to all residents in Stoulton, Pirton, Wadborough and Drakes Broughton and we "share" a Vicar and use the village halls in both Stoulton and Drakes Broughton. Stoulton, Drakes Broughton, Wadborough and Pirton are all in the Pershore catchment area for schools and for GP services. We travel to Pershore to use the shops, the leisure centre, the chiropodists, opticians and dentist and call on the services of local tradesmen from Pershore who regularly advertise in our local monthly newsletter. The links and ties we have with Pershore are far greater than the links or ties with Worcester.
