Comment text:

I would like to confirm that I agree with all the salient points raised by [REDACTED] with respect as to why Wick Village should not become part of Pershore Council. I have recently returned and bought a property in the village, because it is A VILLAGE. We have been happily working within Fladbury Ward, another rural village and therefore of course have common understandings of village requirements, which are completely different to the requirements of a town. I believe that Wick as a rural village should go on to belong to a rural ward and not as part of a town ward as our rural needs are separate and a small village as a minority would be subsumed by the urban interests of a town. It seems wrong to go against the wishes of a rural community itself and to force it to belong to the urban community of Pershore town. Please stop trying to move boundaries around to expedite numbers and not paying attention to the wishes of the village people of Wick.
