### Comment text:

As a resident of Wick for 19 years, I am objecting to the proposed boundary change which moves Wick from the Fladbury Ward to the Pershore Ward. Wick is a strong and close community with many village interest groups. It is of a size where everyone knows one another and supports one another. Wick is a rural community in a conservation area and has four working farms whereas Pershore is a town with totally different issues. I think we would not be well represented if we had to join Pershore. Fladbury is a similar, though larger village with comparable interests and issues and we sit well in this ward.
