### Comment text:

I live in Wick, which is presently in the Fladbury ward and the proposal is to move it in to the Pershore ward. I live closer to Fladbury than Pershore as the crow flies, and feel that many of the issues that come up we share. Although i have voted for several different parties over the years i have been well represented by our local District counciler and have felt more in line with their veiws than the Pershore ward representatives, i belive this is because all the villages in the Fladbury ward are similar. It should not just be a numbers game or the shape of the ward but something that works for the voters and parisheners. I would therefor like to suggest that Wick stays in the Fladbury ward.
