This is to state that I am against the proposal that Wick is moved from Fladbury ward to Pershore ward. for the reasons listed:- 1) Wick has been a part of Fladbury for several years with no problem 2) Wick is a rural village with working farms in the parish 3) Pershore is a town, Wick is a village, many issues can be different and we would just be 'lumped' in with a bigger ward, issues may take a lot longer to be addressed. 4) The Population of Wick is considerably less than Pershore, approximately 365 to 7,255 respectively and therefore we are more likely to just be another 'cog in the wheel' and therefore we may be poorly represented in important issues to us as a rural village. 5) I don't feel we need change, everything works well , we are a lovely individual village, with many people involved with community groups and we just want to remain the same.
