### Comment text:

The most recent proposal is to link Drakes Broughton with Norton and Whittington and we have a strong preference is to remain linked with parishes that, like us, have a rural focus and links with Pershore rather than Worcester. Our doctors are in Pershore and we shop regularly in Pershore. We share a local monthly newsletter that is delivered to all residents in Stoulton, Pirton, Wadborough and Drakes Broughton. We "share" a Vicar and some church services. Whittington and Norton have plans for much more development and are likely to expand even further. We also share a community woodland and Drakes Broughton and Stoulton have the same issues with traffic on the busy main road that runs from Pershore towards Worcester; both communities have people living on either side of it. Drakes Broughton, Wadborough and Pirton. Wadborough and Pirton are small rural settlements and have far more in common with the neighbouring community in Stoulton than the communities in Norton and Whittington. Stoulton, Drakes Broughton, Wadborough and Pirton are all in the Pershore catchment area for schools and for GP services. We travel to Pershore to use the shops, the leisure centre, the chiropodists, opticians and dentist and call on the services of local tradesmen from Pershore who regularly advertise in our local monthly newsletter.
