The most recent proposal is to link Drakes Broughton with Norton and Whittington is not appropriate as it fails to recognise the rural nature of the parish of Pirton and the villages in Drakes Broughton and Wadborough. My strong preference is to remain linked with parishes that, like us, have a rural focus with links with Pershore rather than Worcester. We have always enjoyed a close association with Stoulton; our children using the same schools, we share a local monthly newsletter that is delivered to all residents in Stoulton, Pirton, Wadborough and Drakes Broughton. We "share" a Vicar and some church services and in recent times many of our local clubs and societies used the Village Hall in Stoulton when the Village Hall in Drakes Broughton was closed for rejuvenation. We also share a community woodland and Drakes Broughton and Stoulton have the same issues with traffic on the busy main road that runs from Pershore towards Worcester; both communities have people living on either side of it. Drakes Broughton, Wadborough and Pirton. Wadborough and Pirton are small rural settlements and have far more in common with the neighboring community in Stoulton than the communities in Norton and Whittington. Stoulton, Drakes Broughton, Wadborough and Pirton are all in the Pershore catchment area for schools and for GP services. We travel to Pershore to use the shops, the leisure centre, the chiropodists, opticians and dentist and call on the services of local tradesmen from Pershore who are regularly advertise in our local monthly newsletter.
