Comment text:

I fully object to the new draft proposals set by the council for the naming of wards. I am currently located on Langdale Road in Greenbank and I strongly disapprove of the name of my ward being changed to Smithdown. 'Smithdown' has negative connotations and is linked to students and lairy drunk behaviour. I do not want my local ward to be associated with this behaviour. Families in and around Smithdown have been trying to improve the area and bring families back to the area for years. This is finally improving and now the council is proposing to name our area after the student high street Smithdown Road. I implore that our local area is kept as Greenbank and we can continue to improve the area for local residents after a difficult 10 years.
