Comment text:

The people of Tuebrook are very happy with their ward the way it is and with the councillors who serve it. Splitting up Tuebrook will deprive an already poor area from all the benefits already achieved by our councillors. Tuebrook is always in the firing line for whatever the local authority decides be it cycle lanes or numerous HMOs to name but two without any discussion with the residents. It would serve the local authority better to expand our area rather than split it up and follow the example of our councillors who work tirelessly for our benefit.
