Comment text:

I agree with the reduction in councilors but I see no reason to divide the city up even more. It has not been explained how this would benefit us. Is it so you can change the tax banding of the areas and charge people more? How much has been spent proposing this idea? The money could have been used to fix the gate on Higher lane which I have had to repair myself even though it was reported and [REDACTED] was going to do something about it but couldn't be bothered in the end.
