Comment text:

I am one of the few owner occupiers on Langdale Road, L15 [REDACTED]. My partner and I moved to Liverpool from London in search of a better quality of life. We purchased our home in November 2021. We are both young professionals who are investing significantly into the local economy. We are strongly opposed to the renaming of our area as "Smithdown". Smithdown has incredibly negative connotations. It is associated with students, poor behaviour and crime. We are strongly in favour of being part of Greenbank, which has more positive connotations and reflects the beauty of the greenery and local open spaces which we have the privilege of enjoying.
