Comment text:

I agree with the proposals and am a resident of Old Road. I feel this change would help our local councillor focus on the issues within the area, rather than being too distracted by particular areas/estates who seem to have more attention. I think we would be represented better and hopefully the changes would save the local council money with reduced councillors which means committees and groups would be more hands on and have an increased involvement in decision making which in turn will give council officers more contact with the relevant members. This can only be a benefit to the local authority and residents in the long term.
