### Comment text:

I wish to object the boundary change for Hollingwood, changing the boundary to include Hollingwood into the Brimington North area means that Hollingwood is split away from Staveley town council control with whom we have had a lot of support over the last few years. Hollingwood has historically been part of Staveley since it's creation and loosing this link may mean we do not get the support we have become accustomed to. The Hollingwood Residents Association gets financial backing from Stacey Town Council and I am sure you are aware if it's good works and community events. We would not want this to go down hill.
