Comment text:

I am against combining Elstead and Thursley into the proposed new Churt and Frensham ward. Farnham town and Godalming town are way over represented giving an unrealistic focus on these towns rather than an overall representation of Waverley Borough as a whole. Just because the rural villages have a slightly smaller population does not mean that they should have less representation as the square mileage is far greater and rural needs have a totally different dynamic to that of a town.
