Comment text:

As the ward member for Wellesbourne East I have liaised with Wellesbourne & Walton Parish Council regarding the proposed boundary changes and like me they are alarmed that the parish has been divided into three different wards instead of two. Of particular concern is Wellesbourne North and Rural which includes just a few homes from Wellesbourne. Wellesbourne is classified as a main rural centre and whilst being smaller than Shipston, Southam, Bidford and Alcester which have been divided into two wards, Wellesbourne has been divided into three wards, which is causing the parish great concern and is not an inclusive proposition. I am only in favour of single member wards as this leads to less confusion and provides one point of contact for residents.
