

## Stratford on Avon District Council

### Personal Details:

**Name:** John Gimblett  
**E-mail:** [REDACTED]  
**Postcode:** [REDACTED]  
**Organisation Name:** Tredington Parish Council

### Comment text:

Under current arrangements Shipston North and Tredington Parish share a common Councillor. The apolitical alignment ensures that the residents of Tredington Parish, who rely on Shipston for many areas of support, have their views reflected in any discussion relating to developments in Shipston. Under the new arrangements this will be lost. The proposed boundary revision severs that link and aligns Tredington with Ettington and Stretton-on-Fosse thus creating a purely rural ward rather than one linking urban and rural areas. Views of rural communities, dependent on Shipton, will not be reflected in discussions affecting the development of the town and its amenities which will be a considerable loss. The size of the electorate remains pretty much the same under current and proposed arrangements so from a community perspective much is lost with little, if any, gain.
