Subject: Boundary Changes for Stratford District

Categories: [REDACTED]

I wish to comment on the Boundary Commission's proposal for Stratford District and the Council's response.

My particular interest is the area around Southam.

I live in Napton. [REDACTED]

I disagree with the Commission's proposals for a very large combined ward in the east of the District. The Commission proposal (para 115) for a ward stretching from almost the M40 in the west including Bishops Itchington to Shuckburgh in the east, and from Shotteswell in the south to Napton in the North, represents an entirely unworkable area, even if a two-member ward. The artificial incorporation of Stockton into Southam in a subordinate relationship is also quite unsatisfactory.

I believe the District Council's suggestions for single member wards in response to the Commission's proposal are reasonable, workable and address the concerns of community connection and democratic accountability.

I support Stratford District Council proposal of:

- 1) A single member ward comprising Stockton, Napton-on-the-Hill, Upper & Lower Shuckburgh, Priors Marston, and Priors Hardwick.
- 2) A single member ward comprising Fenny Compton, Shotteswell, Farnborough, Avon Dassett, Burton Dassett, Warmington, Watergall, Hodnell & Wills Pastures.

I therefore support the Council's response, in respect of single member wards and arrangements in the east of the District.

I would appreciate an acknowledgement of this email, please.

Regards
