Comment text:

I would like to object to the proposal to combine parts of Southam, a town, with Long Itchington, a village. The two types of community are different and have different priorities. Under this scheme, the voice of one will be subsumed by the other.. The same objection applies to combining another chunk of Southam with Stockton. Furthermore, the Balkanisation of Southam into four wards makes it hard for the town to have an effective collective voice. These proposals benefit neither Southam nor the included villages.
