What is the justification to move Great Comberton from it's association with Elmley Castle and Little Comberton and the Elmley Castle church benefice which includes the Combertons? The villages cultural pastoral and social links are with Little C0mberton and Elmley Castle - not Eckington. Associating Great Comberton with Eckington, which it has no social links with makes little sense, unless it is to make the expansive development we have seen in Eckington ruin another quiet rural location.
