Comment text:

I most strongly object to the proposed Boundary changes involving my village of Peopleton, namely transferring it from the Upton Snodsbury ward to the Drakes Broughton ward. Our village has much more in common with the other small villages currently within the Upton Snodsbury ward, but little with the small township of Drakes Broughton and the massive development associated with the new Worcester Parkway project and its surroundings. I make this plea not because of any 'Nimby' attitude against developments - there has been proportionate development of new housing throughout our village of Peopleton - but because the residents of Peopleton have a strong community spirit, with more similar interests and concerns to those of the adjacent small villages compared with the Upton Snodsbury ward. I do worry that the proposed boundary change would result in the character of Peopleton being lost as a small village and there seems no logical reason for this change, other than balancing the numbers geographically. PLEASE DO NOT CHANGE OUR BOUNDARY -I SEE IT AS A POTENTIALLY GROSS ADMINISTRATIVE MISTAKE.
