Dear sirs, having recently retired my wife & myself decided that we would like to live out our remaining lives in a semi rural location. Having friends who already lived in Hampton Lovett which is a quiet semi rural location we decided to join them. We now understand that you are intending to change all that by joining us to Westlands, a large estate. Had we wanted to be part of a large estate we would have stayed where we were. If you intend to change our boundary will we receive the same privileges as the residents of Westlands I. e, improved street lighting, at present we do not have street lighting as we are classed as Semi Rural. Will we get an improved bus service, the same as WESTLAND, I doubt it. Improved pavements, I doubt that too. What I do think is that this is in conjunction with a company who wishes to build 102 houses on farm land adjacent to Doverdale Park Homes, this has already been rejected once before. With a change of council & boundary they would more than likely get this. Something is a foot here. We the residents of Doverdale oppose the change of the boundary and wish to stay SEMI RURAL.
