Comment text:

I live in Peopleton and strongly object to the proposed changes. This village is of a rural farming nature akin to Upton Snodsbury and White Ladies Aston. These villages are also connected by the Bowland Benefice and as church goers we have more connection and involvement with those villages. We support each other in fund raising and organising annual events. The natural divide for the boundary between Drakes Broughton and Peopleton is the A44. The continuing growth size of Pershore, Pinvin and Drakes Broughton have no correlation with Peopleton.
