### Comment text:

I live in Peopleton and feel very strongly that I do not wish for our village to be moved into a Ward with Drakes Broughton. I don't really understand why any change is necessary. We are a much more rural village than Drakes Broughton, with no transport links. Additionally I don't feel that we would be able to access resources or Councillor time, we simply don't have anything like the same requirements as Drakes Broughton. We align far better with other, rural villages in our current Ward.
