Comment text:

I live in the village of Wick, and am a parish councillor for Wick. I would like to object to the proposal on the boundary commission to put wick in with Pershore. Wick is a village of 365 parishioners and Pershore is a town of 7.000 people, the needs of a village are very different from those of a town. Wick as 4 farming families who are heavily involved with the parishioners. As a councillor I work very closely with the parishioners to understand their needs and help put them in place. If we are placed with Pershore, wick would become a small cog in a large wheel.
