Organisation Name: Wick Parish Council

Comment text:

Wick is a small village of about 360 residents. The village works well as a community with a number of self help groups e.g. Gardening Club and Wick Wives plus a support group which helps people in need, this worked very effectively in the lockdowns... We have recently carried out a survey of what the community would like and plan to develop the community over the coming years. For a goodly number of years Wick has been part of the Fladbury Ward and ably represented by councillors who understand village communities and their needs. Villages have completely different issues to towns and if Wick was to be part of the Pershore Ward then it is highly likely that our issues would not be understood and the residents of Wick would not be represented as the Councillors time and effort would be focused on the town Therefore I strongly object to this current proposal..
