Comment text:

The Great Hampton ward should continue with the present arrangement of one councillor. The number of electors is forecast to stay roughly the same and we are a separate community from the rest of Evesham including Little Hampton. If we joined with Little Hampton to make 3 councillors, as used to be the case, the ward would be too big with too many diverse interests. It is ideal in my opinion to have two representatives to avoid complacency and favouritism but our ward has different demographics and priorities from any of our rural immediate neighbours to make it practical to join with one of them.
