

Cannock Chase District Council

Personal Details:

Name: Mike Sutherland
E-mail: mikesutherland@cannockchasedc.gov.uk
Postcode: [REDACTED]
Organisation Name: Cannock Chase District Council

Comment text:

I am responding to the proposed new wards for Cannock Chase District Council and specifically for Etching Hill and the Heath. I am responding as a Resident, a Staffordshire County Councillor representing Etching Hill and Heath division, a Cannock Chase District Ward Councillor for Etching Hill and Heath and a Brindley Heath Parish Councillor for Etching Hill. I support the Boundary Commission draft recommendation published November 2022 and their recommendation as detailed in paragraph 40 page 9 of the report. with regards to the boundary line between Etching Hill and the Heath ward and Western Springs ward in continuing to use Weston Springs Road and Rising Brook which I believe makes a better demarcation. Identifiable boundaries. • Clarity for those that may believe that they needed these roads and properties included within Weston Spring ward to balance numbers of electors per councillor can see that numbers are well balanced for all Councillors i.e., 2436 electors each in Etching Hill ward and 2439 for each councillor in Weston Springs ward. • Hagley Road, and the side roads off, i.e., Chase Side Drive, Overpool Close, and Pool Meadow Close consider themselves as part of Etchinghill and Heath. • The Heritage trail is of great significance to the population of Hagley Road and surround as many have rear gardens that back onto the Heritage trail, thus acting as a natural boundary within Etching Hill. attach mapping pic to illustrate my claim
