Comment text:

I am a resident of Broseley, where there is a border between the Broseley Wood ward and the Broseley West ward which snakes around the properties on the other side of the road to my house in a completely arbitrary way. It is confusing for residents who do not understand the division, which makes no logical sense. In my view, it would be common sense to combine the Broseley and Broseley Wood wards. Furthermore as there is similar confusion between the arbitrary division between the Broseley West and Broseley East wards it would be practical & common sense to combine all 3 wards into one ward for Broseley.
