Comment text:

There is no doubt there is a serious need to update some of the local wards to reflect increase voter numbers to reflect bee developments etc. I hope these changes do not result in huge increases in the numbers of the electorate in each ward, this would make the wards unsustainable in some cases. I hope the movement of ward boundaries would include a natural reflection on where people feel affinity too. An example could be the movement of the entire of Heath Farm into Harlescott instead of it being half in Bagley ward. Obviously this would result in the change required for Bagley an increase but possibly into Coton Hill area, with the rest of the Quarry Coton Hill ward moving elsewhere.
