### Comment text:

The Hednesford Hills and Rawnsley ward looks a bit big under these proposals with very different places contained within. Is there a rationale that explains why these changes have been made? Will 3 councillors be sufficient? Will they all be pro-active in the community or will they be leaving it to the Hreen Party to do all the work as at present. The council tax in Cannock Wood is very expensive - will these proposals give us more value for money?
