### Comment text:

Could you please explain why you want to change the boundrys? Is this a cost cutting measure or to give people better representation? How much does this process cost and where is the funding coming from? Why did I have to find out about it on facebook? How will this effect the level of service I receive. Why does my area just become part of Westen springs and the name isn't changed to Westen springs and Hagley like Etching Hill & the heath? This makes me feel like I am second class any you want to remove us from the map.
