Comment text:

I currently serve in a 3-member area in the Desborough Ward of North Northants Council. This ward was set as the original County Council divisional wards, and this takes in 8 small villages and 1 large town of Desborough. The needs of the villages are very different to the larger town and due to the differences in population I find my time is being more and more centred in the town of Desborough. I would like to suggest we get back to sectioning up where possible wards that are either town based or village based and we have ward members able to concentrate on the issues of one or the other.
