I fully understand the need to undertake this work and the only thing I would ask for consideration when looking at the Brickhill and Queensway Ward, Wellingborough, is that as Queensway is identified as one of the "left behind" areas as per the Levelling Up white paper, that consideration be given to not include any additional wards that are close to that threshold, so as to not put a unequal/ additional burden upon the ward. I would ask the same consideration be made when looking at the other 2 "left behind" areas of Avondale Grange, Kettering and Kingswood, Corby. Otherwise this additional pressure upon the ward Councillors could cause things such as the Members Empowerment fund not to be as effective as it would in more affluent areas, plus this could cause additional strain on ward Councillors due to the increased workload.
