Comment text:

The 2006 Boundary Review accepted ties between New Duston, Old Duston and Spencer and whilst these wards do not exist now the communities do. It is proposed to split these areas between North/South Northamptonshire which seems a nonsense when the Boundary Commission's original view was to respect those ties and keep them in one constituency. The review suggests moving Talavera Ward into North Northamptonshire whilst moving Billing and Rectory Farm into South Northamptonshire. Why separate these regions of the Town into two constituencies is a mistake, this was resolved in the initial proposals by bringing Talavera Ward and Billing & Rectory Farm into a single constituency. There are several other alterations from the first consultation which make no sense, the first consultation proposals are more logical.
