Hi,

I am writing to agree with the committee's recommendations in terms of Parklands - and believe that the right recommendation is to retain Parklands as one community. In terms of the wider Northampton Town Parish Council boundaries, I would also favour retaining other boundaries as they are. The Town Council has only been established for four years and maintaining the same boundaries across the parish would enable the Town Council to maintain continuity and further establish itself as the newest and largest parish authority in the country.

Best Wishes,
