Related subject: Preston Capes

Preston Capes has close ties to Woodford and Weedon Ward with Doctors, Schools, shops, sports, clubs, social activities etc, and we feel it would be beneficial to retain those ties.

We have little to no common ground with Silverstone and do not believe the parish will receive the same level of support, assistance and understanding we currently enjoy. – one of our Woodford and Weedon Ward Councillors attends every Parish Council meeting, keeping us updated on issues within the Ward, and the Daventry district in general, which could affect us, as well as assisting with issues with WNC.

Silverstone, traditionally affiliated with Towcester, will have far less knowledge of the things which concern us in this end of the county. Being a small parish, and therefore with a low number of voters, we feel they will be less invested in becoming involved in issues important to us, such as the fight for Byfield Surgery.

With so many parishes spread over such a large area, with interests pointing in different directions, we feel the proposed 3 Silverstone Councillors will be spread too thin to represent us effectively.
So I disagree with the proposal.
