## Comment text:

We have traditionally close ties with Woodford and Weedon Ward  
We share medical and educational services, traffic and transport issues, shopping and social activities. It is important that we retain those ties.  
We have connections to and are affected by issues there and in the Daventry district.

The proposed new Silverstone Ward is too large and diverse an area to provide effective representation.  
We have no links whatsoever with Silverstone whose affiliations are to Towcester.  
Other than being small and rural, we have no common ground with the majority of the other parishes.  
We believe we will be a low priority to the proposed 3 Silverstone Councillors, who will concentrate on their core area at the other side of the county, with our needs overshadowed by theirs.  
We feel that our small parish is being marginalised.
