I believe the Daventry South Ward would be more joined up if it included the Timken estate (ADW3), as this is very reliant on the Headlands estate for shops and is joined in many places. To make the numbers add up I believe that areas of Ashby Fields in the ward, Ashby Park and Daneholme (ADW2, ADW4 and ADW5) should be move to out of the ward. Notwithstanding my argument below this would make the Daventry North ward more coherent as well as the Timken estate is quite didn't from the rest of the residential areas in the ward. I also believe that Daventry North ward should should be split in two as it is separated by the very busy A361 (Ashby Road) and A425 (Northern Way). Lang Farm and Monkmoor are similar new estates and share a school as well as the community area due to be built near to the school. The rest of the ward includes the Ashby Fields and Falconers Hill schools which are attended my most children living in these areas of Daventry

The Silverstone & Rural South Northamptonshire ward is completely unworkable due to it's size. It would be much better split up into 2 or 3 smaller wards. I do not know the geography of the area too well so am unable to say best how it should be split. From an accountants perspective I'd say a south ward from Whittlebury to Greatworth and call it 'Greatworth & Silverstone'. Then the remaining area split into an East and West , the West could be 'Greens Norton' and the East 'Rural South Northants'.
