Organisation Name: (Member of the public)

Comment text:

I would like to add my name to the plan to reduce the number of councillors

The waste of our council tax which has been the highest in the country for years is a disgrace and how the head of council is paid so much for doing such a poor job is beyond belief. If there were half of the number they might make less mistakes in terms of the actions they take (although that is doubtful)

Why when thewre are so few cyclists have we got so much raod space given over to them and they pay no road tax and abuse pavements and traffic lights

It is the wage earning public and pensioners that have to foot the bill for their gross incompetence.
