**Related subject:** Ruton

I find that the number of councillors is too high both for Gateshead and for Ryton .  
Currently there are 3 councillors for this ward with very little been done for the ward .  
The costs of councillors must be very high and I would think we should only have one iso three !!!!  
Nothing really gets done the village is a mess !  
Reduce the number of councillors , save money and improve services .  
Councillors are supposed to represent people in their wards but find that all they do is to repeat the councils opinions and never seem to challenge the council .  
We never see them on our door steps unless it is for one of their pet projects or a photo opportunity .  
Certainly reduce the number of councillors for our ward I am sure we would not feel any negative effect !
