**Related subject:** Management

Gateshead Council has to honestly be one of the worst run councils in the whole of the U.K. we have 2 major leisure centers closing due to mismanagement by the council. The Roads around Gateshead are getting worse and worse not because of the volume of traffic but it seems that every investment in the road infrastructure has only served to increase congestion slow the flow of traffic and increase journey time & length. Planning dept does not get anything done on time & advise given is contradictory as we have 2 neighbours being given completely different information.

I think now Gateshead council has the 10th most expensive council tax in the entire country & yet facilities council run services welfare in the area are getting worse year on year. It's clear that those in charge are incompetent & incapable of running any of their departments. We are honestly considering moving out of the area because the facilities offered by other councils in the vicinity are leagues ahead of our own.
