Related subject: Felling, Gateshead

I personally think the current council are mismanaging the Gateshead area, especially in leisure/wellbeing facilities and that they are financially incompetent. I don't believe having less or more councilors is the answer to this problem, however if they are struggling with money cost cutting through having fewer members could save some money. I just want people held to account and doing their jobs properly more than I care about the number of councilors or their boundaries.
