Comment text:

Related subject: I live in Crawcrook and Greenside Ward but my views apply to the whole council area.

I think that the number of councillors should remain as it is. I think that councillors already have a great deal to do and are very busy. Reducing the number of councillors would increase the workload on individual councillors and make it even more difficult for many people to take on this work. It would also make councillors more remote from their constituents. I do not think that there is a widespread wish to increase the number.
