Comment text:

Why are you doing this? Your speel says what you are proposing but no reasons given why. What a considerable waste of money right from the start no doubt thousands has already been wasted to reach this consultation. It's a disgrace. There is nothing wrong with the current status quo. I've seen this type of rubbish before it is no doubt one or two people trying to make their mark for personal gain. For example Churnet valley North will be fragmented by this ridiculous plan. Why fox the wheel when it's not even broken !
