The community in my area share our lovely park, excellent leisure centre and schools. The shopping area is, as in many towns, going through a difficult period but hopefully this will be addressed. All communities in the area will complain of increasing heavy traffic but I feel this is simply due to our location and being near to the A50, M6 and M1. The range of new housing is welcomed by myself but it is important that facilities are also provided for the new residents of Uttoxeter. As a town we have a cinema, bowling alley, ice rink, train station, bus station and a range of hospitality outlets which combine to provide an attractive social aspect for families. In conclusion I believe that the current boundaries for the Uttoxeter Town seat, which covers the town's Heath and Town wards, is the most appropriate one and should not be changed.
