Comment text:

The Brereton & Ravenhill boundary with Lichfield Rural West needs pushing East to encompass the relatively new St Thomas Way Estate and the new houses proposed for the former Power Station site. These houses and residents are much more likely to use and impact on Rugeley infrastructure and facilities(or lack of!) than Lichfield. Any council tax generated by these existing and proposed houses should go to the area they are actually in! Furthermore the residents of said houses should be able to cast any votes regarding local issues in the area they actually live and use, not on a city miles away that they happen to find themselves on the periphery of.
