I strongly object to the absorption of All Saints into the Kettering Central ward. I have thought for some time that a Kettering Central ward was needed but the road around the Rockingham Road Pleasure Park do not identify with the town centre - they identify with the park. Alongside this, All Saints and Brambleside areas are inextricably linked in many ways which I have outlined further in the document attached. These two should remain as a pair and my view is that the streets closest to the town centre (Crown and Lindsey Street) feel much more part of the town centre and that the absorption of these into Kettering Central makes sense.
