## Comment text:

**Related subject:** Hepscoth Parish

I am against Hepscoth village being moved to Choppington district under the plans to shake up the council boundaries. Hepscoth is part of Morpeth, the children of hepscoth feed into the morpeth schools, hepscoth is fed by morpeth services and not wansbeck. I believe moving hepscoth into the district of choppington will have adverse effects on children getting into morpeth schools, this in turn, will adversely effect hepscoth property prices and the general standing of hepscoth village. I live in Shadfen, which is presently in the parish of Hepscoth but it is even nearer to Morpeth than hepscoth, therefore moving us out of Morpeth, where we access our services would be unproductive. Hepscoth residents pay taxes that support, morpeth, the town where they access services. I believe that the residents of Hepscoth should be given the opportunity to vote on whether they wanted to be moved into Choppington district having been given reasons for this shake up and much more details about the possible benefits and negatives of such a move for Hepscoth parish residents.
